THE 2009 SWINE FLU SCANDAL

Similarities to the 2009 Swine Flu Pandemic Scandal - links of interest

Faith in Quick Test Leads to Epidemic That Wasn't - Epidemic alarm turns out to be false alarm, it appears the health care workers probably were afflicted with ordinary respiratory diseases like the common cold. Epidemiologists and infectious disease specialists say the problem was that they placed too much faith in a quick and highly sensitive molecular test that led them astray. - <https://www.nytimes.com/2007/01/22/health/22whoop.html>

Nature. 2009 Apr 30 - German virologist's race for swine flu test - Christian Drosten talks to Nature about tackling the threat of a pandemic. Christian Drosten is head of the Institute of Virology at the University of Bonn Medical Centre, one of Germany's largest medical virology centres. But he is best known for winning the 2003 race to develop the first diagnostic test for the then-mysterious virus that causes Severe Acute Respiratory Syndrome (SARS). He spoke to Nature about how he has managed to develop a diagnostic test for the H1N1 swine flu even faster, thanks to his experience with SARS.

12.03.2010 - The Swine Flu Panic of 2009 - Swine flu kept the world in suspense for almost a year. A massive vaccination campaign was mounted to put a stop to the anticipated pandemic. But, as it turned out, it was a relatively harmless strain of the flu virus. How, and why, did the world overreact? A reconstruction. 24/06/2010 - PACE - Handling of the H1N1 pandemic: PACE calls for safeguards against 'undue influence by vested interests' - The parliamentarians identified, as did the rapporteur Paul Flynn (United Kingdom, SOC), "grave shortcomings" in the transparency of decision-making about the outbreak, generating concerns about the influence of the pharmaceutical industry on decisions taken. Plummeting confidence in such advice could prove "disastrous" in the case of a severe future pandemic, they said. - <https://pace.coe.int/en/news/2996>

10th February 2014 - Engineering Evil: Intel Portal for Weighted Data and Information - www.EngineeringEvil.com - Wich brout the article 10th February 2014: "WHO and the pandemic flu "conspiracies" – The BMJ and the Bureau of Investigative Journalism report that was covered up" - A joint investigation by the BMJ and the Bureau of Investigative Journalism has uncovered evidence that raises troubling questions about how WHO managed conflicts of interest among the scientists who advised its pandemic planning. – The secrecy of the committee is also fuelling conspiracy theories, particularly around the activation of dormant pandemic vaccine contracts. A key question will be whether the pharmaceutical companies, which had invested around \$4bn (£2.8bn, 3.3bn) in developing the swine flu vaccine, had supporters inside the emergency committee. -- <https://engineeringevil.com/2014/02/10/who-and-the-pandemic-flu-conspiracies-the-bmj-and-the-bureau-of-investigative-journalism-report-that-was-covered-up/>

HOW DANGEROUS IS COVID-19? - The infection fatality rate given by these experts is between 0.01% and 0.36%, and not 3.4% as the World Health Organization (WHO) says. Mortality of corona is equivalent to that of the seasonal flu, the worldwide activities to stop the pandemic are "hype"

"The mortality rate is 0.01%, and not 3.4% as the World Health Organization (WHO) says" - 46 doctors and experts find the Corona COVID-19 mortality rate to be in line with the flu --- A Tribute to the Corona Whistle Blowers -- Tribute to "the most important finding is that the mortality rate is 0.01%, and not 3.4% as the World Health Organization (WHO) says". Has a list of 46 doctors and experts who during the 2019-2020 pandemic publicly have expressed, that they find the Corona COVID-19 mortality rate to be very low, around 0.01% - <http://coronawhistleblower.org/>

Covid-19 case fatality rate around 0.02% -- Drs. Dan Erickson and Artin Massihi, co-owners of a chain of Accelerated Urgent Care facilities, say that after conducting more than 5,000 coronavirus tests they have come to the conclusion that COVID-19 is no more dangerous than a normal seasonal flu and quarantines are not making any difference in preventing its spread. Erickson said at a press conference last week that businesses should begin to re-open and people should begin to go back to work. He estimating the COVID-19 case fatality rate to be around 0.02%, arguing that it's five times less lethal than the 0.1% case fatality rate due to the flu. He said coronavirus and the seasonal flu are "similar in their prevalence and death rates," and "now that we have the facts, it's time to get back to work." - <https://off-guardian.org/2020/04/29/watch-dr-erickson-covid19-briefing-censored-by-youtube/> - https://www.realclearpolitics.com/video/2020/04/26/doctor_after_doing_5000_coronavirus_tests_its_similar_to_the_flu_and_quarantine_should_end.html#! - Exactly how deadly is COVID-19? "Infection fatality rate (IFR) of between 0.1% and 0.36%" - Researchers at the Centre for Evidence-Based Medicine at Oxford University estimate to have an infection fatality rate (IFR) of between 0.1% and 0.36%. Similar to seasonal flu. Taking account of historical experience, trends in the data, increased number of infections in the population at largest, and potential impact of misclassification of deaths give a presumed estimate for the COVID-19 IFR somewhere between 0.1% and 0.35%.* The Centre for Evidence-Based Medicine (CEBM) develops, promotes and disseminates better evidence for healthcare. - <https://www.cebm.net/covid-19/global-covid-19-case-fatality-rates/>

The infection/fatality rate of COVID-19 is 0.26% - The Physicians For Informed Consent (PIC) recently published a report titled "Physicians for Informed Consent (PIC) Compares COVID-19 to Previous Seasonal and Pandemic Flu Periods." According to them, the infection/fatality rate of COVID-19 is 0.26%. Mortality of corona is equivalent to that of the seasonal flu - Professor John Ioannidis of Stanford University in California, a specialist in statistics and epidemiology as well as public health, and at the same time the most quoted scientists in the world - Studies carried out by Professor Ioannidis have shown that the mortality of corona is equivalent to that of the seasonal flu -- Infection Fatality Rate of COVID-19 Inferred from Seroprevalence Data - <https://www.globalresearch.ca/infection-fatality-rate-covid-19-inferred-seroprevalence-data/5727143>

Covid-19 is only one of many similar viruses of respiratory infections, the worldwide activities to stop the pandemic are "hype" - Dr Wolfgang Wodarg, European expert in flu epidemics says: Covid-19 is only one of many similar viruses which usually go undetected as part of an ordinary seasonal period of respiratory infections, and that the worldwide activities to stop the pandemic are "hype" caused by the selective perception of researchers -- Dr Wodarg is specialist in pulmonology, was leader of Germanies flu control many years, and also leader of PACE, former chairman of the (Parliamentary Assembly of the Council of Europe). It was dr Wodarg that uncovered the Swineflu Scandal of 2009, through his efforts as a member of the German Bundestag and also a member of the Council of Europe, the hoax of Swine Flu Scandal of 2009 was brought to an end, before it would lead to even more serious consequences. "It's looking more like a really bad influenza than it is a SARS-like disease" - NPR Science Correspondent Richard Harris - Does The New Coronavirus Spread Silently? This pattern of infection is similar to that of the flu. "It's looking more like a really bad influenza than it is a SARS-like disease," Fauci says. That would mean the risk of serious illness is low for most healthy individuals, but if the novel coronavirus spreads as widely as influenza does, it could still take a lot of lives. -- <https://www.wbur.com/npr/803158339/does-the-new-coronavirus-spread-silently>

Coronavirus: Weekly death figures continue to fall - The UK State instructed the ONS to record any and all mentions of COVID 19 on the death certificate (MCCD) as COVID 19 mortality. The ONS were told to accept suggested COVID 19 mortality figures from the Care Quality Commission (CQC) even if COVID 19 was not mentioned on the MCCD. This has left the collection and reporting of COVID 19 mortality in England and Wales in total disarray. BBC - <https://www.bbc.com/news/health-52976580>

WHY ARE THERE SO MANY DEATHS ATTRIBUTED TO COVID 19? Additional excess deaths were attributable to covid-19

Why have so many coronavirus patients died in Italy? - Citing the research, which found no clear covid-19 cause of death in 88% of deaths attributed to coronavirus, the scientific adviser to Italy's minister of health, Professor Walter Ricciardi, said: "The way in which we code deaths in our country is very generous in the sense that all the people who die in hospitals with the coronavirus are deemed to be dying of the coronavirus..... On re-evaluation by the National Institute of Health, only 12 per cent of death certificates have shown a direct causality from coronavirus." - <https://www.telegraph.co.uk/global-health/science-and-disease/have-many-coronavirus-patients-died-italy/> - Characteristics of covid-19 patients dying in Italy Report based on available data on March 20th, 2020 - ISS.it (translated: Superior Institute of Health) - https://www.epicentro.iss.it/coronavirus/bollettino/Report-COVID-2019_20_marzo_eng.pdf

The president of the Italian Civil Protection Service actually went out of his way to remind people of the nature of Italy's fatality figures in a morning briefing on 20/03: I want you to remember these people died WITH the coronavirus and not FROM the coronavirus". What does this actually mean? It means that the Italian death toll figures could have been artificially inflated by up to 88%. If true, this would mean the total number of Italians who have actually died of covid-19 could be as low as ~700. Which would bring Italy, currently a statistical outlier in terms of Covid19 fatalities, well in line with the rest of the world. - <https://www.youtube.com/watch?v=0M4kbPDHG0&feature=youtu.be&t=210> (Italian)

72.2% additional excess deaths were attributable to covid-19 - ONS (Office of National Statistics) report on non covid-19 related deaths. The ONS report reveals that between March 7th and May 1st (ONS Week 11-18 of year 2020) there were 46,380 excess death, over and above the statistical 5 year average, registered in England and Wales. Of the 46,380 excess deaths 12,900 (27.8% of additional excess deaths) were not attributable to COVID 19. This suggests that 33,480 (72.2% of additional excess deaths) were attributable to COVID 19. Of the 46,380 excess deaths 12,900 (27.8% of additional excess deaths) were not attributable to COVID 19. Listed of dying 'with Covid' not 'from Covid' - Lockdown Regime Deaths and the True Cost of LOKIN-20 - Speaking on April 16th the UK's Chief Scientific Officer, Sir Patrick Vallance, stated: "It is worth remembering again that the ONS rates are people who've got COVID on their death certificates. It doesn't mean they were necessarily infected because many of them haven't been tested. So we just need to understand the difference." They have demonstrated that death figures are inflated because they were listing many as Covid when they weren't even tested and of the ones that were tested they are listed of dying 'with Covid' not 'from Covid'. - <https://in-this-together.com/lockdown-regime-deaths-lokin-20/>

The way 'Covid deaths' are being counted is a national scandal - We have no idea how many lives have really been lost to the disease. As a pathologist, I'm used to people thinking that my job mainly involves dealing with death. But nothing could be further from the truth. That is why I and many of my colleagues are so dismayed by changes introduced during the coronavirus epidemic which mean that pathology has not been able to play the role that it should have in helping to understand this new disease. Patients are being intentionally killed for the COVID bonus money - The pandemic hit New York harder than any other state. Elmhurst was one of the epicenters of the virus within New York City. Epicenter Nurse, Erin Marie Olszewski is a Nurse-turned-investigative journalist, who has spent the last few months on the frontlines of the coronavirus pandemic, on the inside in two radically different settings. Two hospitals. One private, the other public. One in Florida, the other in New York. And not just any New York public hospital, but the "epicenter of the epicenter" itself, the infamous Elmhurst in Donald Trump's Queens. As a result of these diametrically opposed experiences, she has the ultimate "perspective on the pandemic". Tests do not rule out bacterial infection or co-infection with other viruses - CDC - Results are for the identification of 2019-nCoV RNA. The 2019-nCoV RNA is generally detectable in upper and lower respiratory specimens during infection. Positive results are indicative of active infection with 2019-nCoV but do not rule out bacterial infection or co-infection with other viruses. The agent detected may not be the definite cause of disease. Laboratories within the United States and its territories are required to report all positive results to the appropriate public health authorities. -- Negative results do not preclude 2019-nCoV infection and should not be used as the sole basis for treatment or other patient management decisions. Negative results must be combined with clinical observations, patient history, and epidemiological information. -- What this suggests is that a positive infection could be the result of co-infection with other viruses. According to the CDC it "does not rule out "bacterial infection or co-infection with other viruses. The agent detected may not be the definite cause of disease." The lockdown & its collateral damage

The many inconsistencies surrounding corona policy - trying to control Covid-19 through lockdown was a monumental mistake on a global scale, the cure was worse than the disease. Lockdown saved no lives and may have cost them

Nobel Prize winner Michael Levitt, a Biophysicist and a professor of structural biology at Stanford University criticized the WHO as well as Facebook for censoring different information and informed perspectives regarding the Coronavirus and has claimed that, with regards to lockdown measures, that "the level of stupidity going on here is amazing." Professor's model for coronavirus predictions should not have been used - The response to Covid-19 in the UK, the US and other countries was shaped by the dramatic headlines in mid-March, suggesting 550,000 deaths in the UK and 2.2 million in the US. Faced with widely publicised, alarming figures, as demonstrated by Imperial College's Professor Neil Ferguson, governments were forced to react with the unprecedented lockdown to suppress Covid-19. No one looked at his ten years of predictions that were wrong. His previous model produced wildly inaccurate results. - <https://www.thetimes.co.uk/article/professors-model-for-coronavirus-predictions-should-not-have-been-used-z7dqrkzld>

The Lancet - journal of clinical medicine -- A country level analysis measuring the impact of government actions, country preparedness and socioeconomic factors on COVID-19 mortality and related health outcomes - When COVID-19 mortality was assessed, variables significantly associated with an increased death rate per million were population prevalence of obesity and per capita GDP. In contrast, variables that was negatively associated with increased COVID-19 mortality were reduced income dispersion within the nation, smoking prevalence, and the number of nurses per million population (Table 4). Indeed, more nurses within a given health care system was associated with reduced mortality. Mortality rates were also higher in those counties with an older population upon univariate analysis, but age as a factor was not retained in multivariable analysis. Lastly, government actions such as border closures, full lockdowns, and a high rate of COVID-19 testing were not associated with statistically significant reductions in the number of critical cases or overall mortality. Professor Mark Woolhouse, epidemiologist and specialist in infectious diseases, Edinburgh University Member of the Scientific Pandemic Influenza Group on Behaviours, that advises the Government stated that - "... Lockdown was a monumental disaster on a global scale. The cure was worse than the disease." "I never want to see national lockdown again. It was always a temporary measure that simply delayed the stage of the epidemic we see now. It was never going to change anything fundamentally, however low we drove down the number of cases," "We absolutely should never return to a position where children cannot play or go to school." "Lockdown was a panic measure and I believe history will say trying to control Covid-19 through lockdown was a monumental mistake on a global scale, the cure was worse than the disease - <https://www.express.co.uk/life-style/health/1320428/Coronavirus-news-lockdown-mistake-second-wave-Boris-Johnson>

Dr. Sucharit Bhakdi, a specialist in microbiology and one of the most cited research scientists in German history is also part of Corona Extra-Parliamentary Inquiry Committee mentioned above and has also expressed the same thing, multiple times early on in the pandemic all the way up to today. Implementation of the current draconian measures that are so extremely restrict fundamental rights can only be justified if there is reason to fear that a truly, exceptionally dangerous virus is threatening us. Do any scientifically sound data exist to support this contention for COVID-19? I assert that the answer is simply, no. - Bhakdi. You can read more about him here.

NHS (National Health Service) staff forbidden from speaking out publicly about coronavirus - Draconian measures prevent some healthcare professions discussing their work during pandemic. "When it comes to the day-to-day clinical issues and challenges we face, there is a definite power dynamic at play, and [we] are generally petrified to speak out," they said. - Robert F. Kennedy Jr. environmental lawyer and activist, author, and anti-vaccinationist. Kennedy is a son of Robert F. Kennedy and nephew of former president John F. Kennedy. Kennedy wrote the foreword for Plague of Corruption, a book by research scientist Judy Mikovits. Mr. Kennedy talked about government control by fear and spoke out against totalitarianism. He said the government and those with the greatest wealth and control have done a terrible job on public health and will shift us all to 5G and a cashless society. He said that 5G is being pushed on us as a good thing but it will be used for surveillance and data harvesting. Mr. Kennedy added that the COVID 19 pandemic is a crisis of convenience that is destroying the middle class, impoverishing us all, and it is making the powerful elite even more powerful. - Lord Sumption, Former Supreme Court judge - THE ground is shifting. This week, more than 12,000 scientists signed up to a courageous protest against current coronavirus policies. It has been spearheaded by three distinguished international scientists, including Oxford University's Prof Sunetra Gupta. The Government's policy is founded upon a great lie — that we are all vulnerable to Covid so it is necessary to take over the lives of everyone. Many people believe this. But it is not true. For healthy people under 60 the symptoms are usually mild or non-existent. The victims are overwhelmingly very old people and those with other serious health problems — serious enough to appear as a cause of death on the death certificate. - <https://www.thesun.co.uk/news/12886627/lord-sumption-government-death-toll-coronavirus-crisis/> --- <https://www.youtube.com/watch?v=OG3hAIOZyCM> - In 27 October 2020 Lord Sumption delivered the 2020 Cambridge Freshfields Lecture entitled "Government by decree - Covid-19 and the Constitution" --- <https://www.youtube.com/watch?v=amDv2gk8aa0>
- British solicitors and legal researchers - We are The People's Brexit, a group of Solicitors, legal researchers and campaigners. We have been extensively researching the current legal situation since the illegal 'lockdown' deprived us all of our Democracy, Human Rights and Freedoms. We have now established that The Coronavirus Act 2020 is null and void. There are many reasons for this, the main one being that S1(1) of the Act defines 'coronavirus' as being 'covid-19' or it's other name 'SARS Cov-2'. However, by virtue of the fact that it is not legally, medically or scientifically recognised as a disease or virus it cannot be legislated against, and this makes the whole Act null and void. The reason for this is that 'covid-19' has not been subjected to the 130 year established legal, medical and scientific procedure that recognises if it is actually a disease or virus or not, which is known as the Koch Postulates. This involves purifying and isolating the 'disease' or 'virus' and proving that it actually causes the illness that it is claimed that it does. -

Complaints include business closures, the mandating of masks and social distancing rules which the group argues are "extreme, unwarranted and unjustified" responses to the pandemic were "not scientific, nor medically-based, nor proven." They also bring forth evidence stating that government mask mandates can cause "physical and psychological harm." The group accuses the WHO, mainstream media and the federal government of spreading false alarm during the COVID-19 pandemic. - A manifesto promoted by Catholics reads that the Covid-19 pandemic is being used as a "pretext" to deprive citizens around the world of their fundamental freedoms and promote "a world government." The appeal, led by Archbishop Carlo Viganò, a former apostolic nuncio to the United States, was released in Rome and includes the signatures of at least two cardinals and a U.S. bishop, Joseph Strickland of Tyler, Texas, as well as anti-vaccine activist Robert F. Kennedy, Jr., the son of Robert F. Kennedy and the nephew of President John F. Kennedy. The manifesto cites "growing doubts ... about the actual contagiousness, danger, and resistance of the virus." Among the other signatories are dozens of Catholic and non-Catholic intellectuals, doctors and journalists, most of them from Italy. Franklin Graham, the son of Billy Graham, joined the debate this week with a tweet claiming, "It's becoming more obvious to people that the response of some in the government is not just about protecting lives, but it's about control." - Sign the appeal - <https://veritasliberabitvos.info/appeal/>

Virus Mania in the media - How the Medical Industry Continually Invents Epidemics, Making Billion-Dollar Profits at Our Expense. The authors of Virus Mania, journalist Torsten Engelbrecht and doctor of internal medicine Claus Köhnlein, MD, show that these alleged contagious viruses may be, in fact, also be seen as particles produced by the cells themselves as a consequence of certain stress factors such as drugs. These particles are then identified by antibody and PCR tests and interpreted as epidemic-causing viruses by doctors who have been inoculated for over 100 years by the theory that microbes are deadly and only modern medications and vaccines will protect us from virus pandemics.

The central aim of this book is to steer the discussion back to a real scientific debate and put medicine back on the path of an impartial analysis of the facts. It will put medical experiments, clinical trials, statistics and government policies under the microscope, revealing that the people charged with protecting our health and safety have deviated from this path. Along the way, Engelbrecht and Köhnlein will analyze all possible causes of illness such as pharmaceuticals, lifestyle drugs, pesticides, heavy metals, pollution, stress and processed (and sometimes genetically modified) foods. All of these can heavily damage the body of humans and animals and even kill them. And precisely these factors typically prevail where the victims of alleged viruses live and work.

To substantiate these claims, the authors cite dozens of highly renowned scientists, among them the Nobel laureates Kary Mullis, Barbara McClintock, Walter Gilbert, Sir Frank Macfarlane Burnet and microbiologist and

Pulitzer Prize winner René Dubos. The book presents approximately 1,100 pertinent scientific references, the majority of which have been published recently. The topic of this book is of pivotal significance. The pharmaceutical companies and top scientists rake in enormous sums of money by attacking germs and the media boosts its audience ratings and circulations with sensationalized reporting (the coverage of the New York Times and Der Spiegel are specifically analyzed). Individuals pay the highest price of all, without getting what they deserve and need most to maintain health: enlightenment about the real causes and true necessities for prevention and cure of their illnesses.

“The first step is to give up the illusion that the primary purpose of modern medical research is to improve people’s health most effectively and efficiently,” advises John Abramson of Harvard Medical School. “The primary purpose of commercially-funded clinical research is to maximize financial return on investment, not health.”

Virus Mania will inform you on how such an environment took root—and how to empower yourself for a healthy life.

False Alarm: The Truth about the Epidemic of Fear Paperback

False Alarm: The Truth about the Epidemic of Fear Paperback – September 1, 2006 - by Dr Marc Siegel ---- Marc K. Siegel is an American physician, Professor of Medicine at the NYU Langone Medical Center. More relevant than ever as the Coronavirus, COVID-19 pandemic sweeps the globe, *False Alarm* (Originally released in 2008) reminds readers to look closely at the facts as the media covers the national pandemic news and spread of the virus, as well as reinforces the notion that we must arm ourselves against fear tactics that inhibit our abilities to properly make decisions in a world of uncertainty. Life today for citizens of the developed world is safer, easier, and healthier than for any other people in history thanks to modern medicine, science, technology, and intelligence. So why is an epidemic of fear sweeping America? The answer, according to nationally renowned health commentator Dr. Marc Siegel, is that we live in an artificially created culture of fear. In *False Alarm*, Siegel identifies three major catalysts of the culture of fear—government, the media, and big pharma. With fascinating, blow-by-blow analyses of the most sensational false alarms of the past few years, he shows how these fearmongers manipulate our most primitive instincts—often without our even realizing it. *False Alarm* shows us how to look behind the hype and hysteria, inoculate ourselves against fear tactics, and develop the emotional and intellectual skills needed to take back our lives.

Vaccine Whistleblower: Exposing Autism Research Fraud at the CDC - August 20, 2015 - by Kevin Barry (Author), Robert F. Kennedy (Foreword), Dr. Boyd E. Haley (Preface)

Kevin Barry, Esq. is the father of three sons, one with regressive autism. After receiving his JD from the Hofstra University School of Law, he worked at the US Attorney’s Office for the Southern District of New York in the civil division. Mr. Barry is currently copresident of the Elizabeth Birt Center for Autism Law & Advocacy. He is also the president of First Freedoms, Inc., a nonprofit organization dedicated to advancing the freedoms guaranteed by the first amendment of the Constitution. Mr. Barry is the former president of Generation Rescue. He lives in New York, NY.

Robert F. Kennedy, Jr., JD, LL.M., is senior attorney for the Natural Resources Defense Council, chief prosecuting attorney for the Hudson Riverkeeper, and president of Waterkeeper Alliance. He was named one of Time magazine’s “Heroes for the Planet” for his success in helping restore the Hudson River, and he continues to fight for environmental issues across the Americas. He is the bestselling author of *Crimes Against Nature* and *Thimerosal*. He lives in Bedford, New York.

Dr. Boyd E. Haley is the former chairman of the chemistry department at the University of Kentucky, where he taught chemistry and biochemistry. He lives in Lexington, Kentucky. --This text refers to the paperback edition.

Vaccine Whistleblower is a gripping account of four legally recorded phone conversations between Dr. Brian Hooker, a scientist investigating autism and vaccine research, and Dr. William Thompson, a senior scientist in the vaccine safety division at the Centers for Disease Control and Prevention (CDC).

Thompson, who is still employed at the CDC under protection of the federal Whistleblower Protection Act, discloses a pattern of data manipulation, fraud, and corruption at the highest levels of the CDC, the federal agency in charge of protecting the health of Americans. Thompson states, “Senior people just do completely unethical, vile things and no one holds them accountable.” This book nullifies the government’s claims that “vaccines are safe and effective,” and reveals that the government rigged research to cover up the link between vaccines and autism. Scientific truth and the health of American children have been compromised to protect the vaccine program and the pharmaceutical industry. The financial cost of the CDC’s corruption is staggering. The human cost is incalculable. *Vaccine Whistleblower* provides context to the implications of Thompson’s revelations and directs the reader to political action.

Documentaries

OVALmedia - Our documentary film “trustWHO” (2018), examines the conflicts of interest surrounding the World Health Organisation, for instance, we revealed that the panic around 2009 swine flu pandemic has been pushed by corporate interests. Now, we want to produce a 90 min high-quality documentary about the corona crisis, we think this is the best format to make people reflect and question the status quo. We want to be able to take the time to really understand what is happening regarding the corona crisis and critically question what the driving factors in this crisis are. We want to give a platform for debate and multiple perspectives.

OVALmedia was founded in 1998 by Lilian Franck and Robert Cibis and has been producing international documentary films and cross media projects for cinema and television for over 20 years. Our documentary film “Pianomania” (2009) has been screened in cinemas in more than 25 countries and received a number of awards (e.g. the main prize *Semaine de la Critique Locarno*). Other cinema films include “Fuck Fame”, which was released in 2019 as well as the investigative doc “trustWHO” (2018) which sold to TV channels all over the world and looks behind the scenes of private interests within the World Health Organization. In the same year, OVALmedia took over distribution of their film “Free Lunch Society” (2016), which advocates the introduction of an unconditional basic income.

I have been an independent filmmaker for more than 20 years. Our 2017 feature documentary *trustWHO* examines the conflicts of interest surrounding the World Health Organisation. For instance, we revealed that the panic around 2009 swine flu pandemic has been pushed by corporate interests. Now, we want to produce a 90 min high-quality documentary about the corona crisis. We think this is the best format to make people reflect and question the status quo. We want to be able to take the time to really understand what is happening regarding the corona crisis and critically question what the driving factors in this crisis are. We want to give a platform for debate and multiple perspectives. It is crucial for us to be calm, rational and focused to investigate.

Trust WHO - 85 Min - Documentary - 2017

When it comes to our health, there are very few institutions that are both competent and independent. We want to rely on doctors, of course, and health officials, as well. They, in turn, take their cues from the World Health Organization. But what if the trust that billions of people around the world put on this institution is misplaced?

This personal investigation tells the story of how the WHO has been infiltrated and influenced by industry, and how the member States misuse the UN-organization for their own national economic interests. Whether dealing with the tobacco scandal, swine flu or Fukushima - the WHO plays a daunting role. It lacks funding, power and transparency. And its decisions end up helping the pharmaceutical companies and the nuclear energy industry more than the victims. The WHO was created as a guardian of world health, but it has become the plaything of individual interests.

Lilian Franck shows a frightening portrayal of our present society, in which governmental politics is becoming obsolete.

The new beta version of CORONA.film website is ready, you can find the latest updates, budget plan, relevant research and more information here: <https://oval.media/coronafilm> We investigate for you. In 2017, we produced a cinema documentary "trustWHO" to investigate Swine Flu. Today, we are in the best position to produce a 90-min documentary for the current Coronavirus Crisis. The triangular relationship between politics, science and media seems to be knocked off balance. We want to explore how this imbalance impacts us all. - <https://oval.media/coronafilm>

CALL for FOOTAGE: SCENES FROM LOCKDOWN - Share your quarantine videos and diaries with us

Share your quarantine videos and diaries with us. We would like to include authentic lockdown footage from all over the world in our film – scenes that picture the ordinary, every-day life we all had to adjust to during the times of the crisis. We would love to hear and see your stories – these might capture fascinating moments of self-discovery, challenging days of self-isolation, funny videos of your pets at home or perhaps sad days that show how the crisis impacted people's lives in a negative way. If you have recorded something that may be interesting for the film, please send your footage to us at oval@oval.media.

Here are some more examples:

- Scenes of empty roads, places, playgrounds, beaches, landscapes, etc.
- Scenes from indoors, with people wearing masks
- Footage of Police / Customs officers / Teachers etc. in action
- People challenging lockdown measures
- Scenes from funerals

Share your quarantine diaries with us here: www.cognitofirms.com/QuarantineDiaries
